

GENERAL INFORMATION

Ordering Information: Please make sure you are ordering the correct parts. Verify part numbers upon ordering. On larger orders please fax (905) 404-2302, email at mike@billstruckshop.com / rob@billstruckshop.com / aaron@billstruckshop.com or call for more information.

Payment: We accept VISA, MasterCard, Money Orders, E-Transfers, Personal and Company cheques. Payment plans also available on large restoration. Applicable taxes apply to all sales.

Shipping: Ship by your choice of Canpar, UPS, FedEx, Canada Post, or truck carrier on some large items. Most orders can be shipped same day for next business day delivery. Actual shipping charges will be applied. Also, a \$10.00 COD surcharge applies.

Pricing: Prices are in Canadian currency. Due to constant fluctuation between the Canadian and U.S. dollar –refer to the prices in the catalogues as a **GUIDE ONLY!** Bill's Truck Shop Limited Ltd., reserves the right to make appropriate changes as necessary. We try to keep prices low by keeping a large inventory on hand at all times. WE never buy parts with YOUR money to sell to YOU so we never pre-charge you for normal stocking items that are out of stock.

Returns and Guarantees: If fault is found in the parts or workmanship of item purchased, full money back guarantee or exchange for new item. If fault occurs from installation or misuse, no return will be given. No refunds will be given on electrical components or literature. Call with any questions.

Back Orders: No shipping charges will be applied to regular stocked items, unless a manufacturer's back order applies. All back orders cancelled after 60 days.

Discounts: Business's may apply for discounts after providing valid business info. Regular customer discounts can be applied depending on volume purchases / monthly specials and payment type. (E.g.: 3% discount on cash sales - on applicable items only) Check our website for monthly specials.

Parts: There is an ever increasing supply of reproduction parts, they are not always listed in the catalogues. New items can be viewed on our website, www.billstruckshop.com or call for info.

Used Parts: Unlike many other parts suppliers we stock or locate many parts that are not reproduced. We import parts from (California) and bring back trucks, beds, cabs etc. Bill's Truck Shop Limited has made a commitment to supply many new and used parts for your restoration and as a result we are the largest truck part supplier in Canada. NO discounts on used parts. We also will take your used parts in on trade.

. For rear leaf spring setups, these items help correct your rear end to **driveshaft angle** and eliminate vibration during operation at all speeds. Misalignment is common on lowered and lifted vehicles Our axle shims are also an important item when you have added power steering to your vintage straight axle front end. Original straight axle front ends came with minimal caster angle to make steering easier on the driver. When power steering is added, the **caster angle** must be increased or "road wander" becomes prevalent.

TRANSMISSION

The SM-420 4-speed transmission was produced by General Motors between the years of 1947 & 1967. Starting in 1966 General Motors offered the NP-435GA for its light truck applications as an option. The NP-435-GA became the standard 4-speed sometime in the late 1960s. The cast iron case with large bulge on the passenger side makes the SM-420 easy to identify. Ribbing was added to the bulge on later cases. The ribbed SM-420 case should not be confused with the later SM-465 transmission. How can you tell which 4-speed your 1966 has, if reverse is to the driver & down, it's the SM-420, if to the passenger & down

Electric Fan

44-0016 Produces a 1600 CFM Rating at 18.4 or 14 amp draw.

- This fan is 3 1/4" deep through the center of the motor; it gradually thins to 1 1/2" at the outer edge
- Curved blades are quiet and push the same amount of air as a straight blade.
- Factory built as a puller, mounted inside and pulls the air through the radiator.
- 12V REVERSIBLE 'S' BLADE - Blades & polarity of the wiring can be reversed & it becomes a pusher
